

## BAYLOR COLOMBIA APPROACH TO HEALTH

| WHY WE DO IT ?   | WHAT DO WE DO ?   | HOW WE DO IT?  |
|--|---|--|
| <p>We believe a holistic approach of health will support the reduction of the high infant and maternal mortality rates of the population in Colombia</p> | <p>Our health model incorporates, health care delivery, education, research and complimentary actions</p> | <p>Through programs that impact the determinants of health, we are implementing a New Holistic Indigenous Health Model. We do not treat just the pathology, we work on its causes to resolve the patient</p> |
